

The screenshot shows the MIT App Inventor workspace for an application named "ÜzemanyagApp". The interface is divided into several sections:

- Top Bar:** Contains the application name "ÜzemanyagApp" and a search bar for workspace blocks.
- Left Sidebar:**
 - DESIGN Tab:** Shows a list of UI components (Screen1, Gomb, Eredmény) and Core components (Control, Logic, Math, Text, Lists, Color, Device, Objects, Variables, Functions).
 - BLOCKS Tab:** Shows a list of Logic Modules and App Features.
- Main Workspace:** Displays a Scratch-like block editor. The code is as follows:

```

when Gomb Click
do
  set app variable "fogyasztas" to fogyasztás_bevitel's Text
  set app variable "tav" to táv_bevitel's Text
  set app variable "liter_ar" to üzemanyag_ár_bevitel's Text
  set app variable "tav_100" to app variable "tav" + 100
  set app variable "felh_liter" to app variable "tav_100" x app variable "fogyasztas"
  set app variable "koltseg" to app variable "felh_liter" x app variable "liter_ar"
  set Eredmény's Text to + join - "Az utazás költsége: "
  - app variable "koltseg"
  - " Ft"
      
```
- Right Sidebar:** Contains a search bar for workspace blocks and a workspace management icon.
